A dormitory is a residence for national civil servants.

It is a building that exists not only for the people who live in it, for the organizations in the country where they work, but also for the community in which it is located.

We are working on various issues such as decarbonization and lack of nursery schools. In particular, we are focusing on renovation in terms of making effective use of existing stock.

We hope that through this experience, you will be interested in our work.
