HP Tokyo Tech x YNU x Takushoku UX/UI Design Virtual Workshop	December 1st (18:15-19:50) ZOOM	English (with Japanese support)	This event is in partnership with Le Wagon Tokyo and Hult Prize at Tokyo Tech and Hult Prize at Takushoku University. Students will have the opportunity to discover the fundamentals of UX/UI Design through a design sprint to prototype their ideas and accelerate their projects. Students will discover how to do an all-in-one job of understanding their business and consumer, while quickly developing their business and making it easily presentable and understandable. Students are welcome to join and enter the session at any time throughout the session. During the workshop, students may use software that many be easily downloadable or can be used as an online application (no prior preparation is needed)
